2:00 pm to 4:00 pm**

ASRC Auditorium
85 Saint Nicholas Terrace
New York, NY 10031

**Register to attend in
person by January 15:**
<http://bit.ly/2taIRMh>

Livestreaming is also
available.

For more information visit
our Student Opportunities
page at: asrc.gc.cuny.edu

This event will feature a number of undergraduate summer research programs which place students with mentors at the CUNY ASRC and other local institutions. Many programs offer stipends and other support packages. Participating programs include:

- CUNY Summer Undergraduate Program (CSURP)
- Materials Research Center Research Experience for Undergraduates Program (MRSEC REU) and Nano-NY
- Research Experience for Undergraduates program in Biochemistry, Biophysics and Biodesign (B3-REU)
- CREST Center for Interface Design and Engineered Assembly of Low Dimensional Systems Research Experience for Undergraduates (CREST IDEALS REU)

Participants will also have the opportunity to meet with representatives from The Graduate Center's Office of Admissions, tour labs, mingle with faculty, and visit our IlluminationSpace education center.
